PROJECTS

Portfolio Website
I've created a portfolio website using React, highlighting some of the work, skills & other aspects of a profile.

Calculator
Developed a functional calculator application using HTML, Bootstrap, and JavaScript.

Tic-Tac-Toe
A classic two-player game where users take turns marking X's and O's on a 3x3 grid to achieve three in a row.

Todo-List App
Developed a dynamic and interactive Todo List application using React.

Stopwatch
Created in React, the application allows users to start, stop, and reset.

Digital Clock
Developed a real-time digital clock application using React, showcasing real-time data handling.

Event Management System
This system is built with Java, JSP, Servlet, and a database offers user-friendly event creation, management & display.

EDUCATION

National University of Modern Languages, Islamabad
02/2022 - Present
Bachelors in Computer Science
CGPA - 3.01/4.0

SUMMARY

A NUML Islamabad student, seeking opportunities within web-based technology to gain invaluable industry experience. Eager to work for an organization as an intern, aims to learn the inner workings of professionals and companies, and to understand the corporate work structure for the future. With a foundation in React, HTML, CSS, and JavaScript, I am keen to contribute to dynamic projects and collaborate with professionals to enhance skills and knowledge in web development.

SKILLS

React, JavaScript, HTML5, CSS3
